

# OUR PLATFORMS

Sometimes we get feedback from users who say they need an overall view of which platforms (sports or non-sports) we have in the ASN Database. If you're a subscriber, you can always check the "Platforms" drop-down when you begin searching. But if you're not a subscriber - or you want to check the list in its entirety - here it is below.

If you want more insights - eg which platforms are growing/ flatlining/ declining in any given year - check out the ASN Annual Report (available by contacting us at [info@asiasponsorshipnews.com](mailto:info@asiasponsorshipnews.com)) which is full of insights from the past full calendar year.

**TIP: Many platforms have "sub-platforms" which allow you to search even deeper than what you see below...**

## NON-SPORT

Arts: Performing

Arts: Visual

Awards

Branded Content: Device

Branded Content: Movies

Branded Content: Online Content

Branded Content: TV
